# zappiti Duo 4K HDR

## Specifications:

HDMI 2.0a (HDCP 2.2, TX/RX, CEC, Deep Color, 12 bits, xvYCC, MHL 3.0)

5x USB 2.0, 1x USB 3.0

1x USB Type-C

CVBS video analog output (both analog and digital video outputs are active at the same time)

Audio analog RCA (both analog and digital video outputs are active at the same time)

S/PDIF coaxial and optical audio output (Toslink)

Ethernet Gigabit 10/100/1000 M/bs

Wi-Fi 5G, SD / MMC card reader

AC connector, AC button On/Off (at the back)

LED display on front panel controlled with RC

Weight 6.61 Lb

Dimensions 430 x 289 x 74 mm (16.92 x 11 x 2.75 In)

Aluminium Finish

# zapPi<sup>ti</sup> Mini4K HDR

## Specifications:

HDMI 2.0a (HDCP 2.2, TX/RX, CEC, Deep Color, 12 bits, xvYCC, MHL 3.0)

2x USB 2.0, 1x USB 3.0

1x USB Type-C

CVBS video analog output (both analog and digital video outputs are active at the same time)

Audio analog RCA (both analog and digital video outputs are active at the same time)

S/PDIF optical audio output (Toslink)

Ethernet Gigabit 10/100/1000 M/bs

Wi-Fi 5G, SD / MMC card reader

AC connector, AC button On/Off (at the back)

LED display on front panel controlled with RC

Weight 0.88 Lb

Dimensions 201 x 162 x 85 mm (7.87 x 6.3 x 3.15 In, can be mounted on a wall, small size)

Aluminium Finish

# zappiti One SE 4K HDR

## Specifications:

HDMI Audio Video 2.0a (HDCP 2.2, CEC, Deep Color, 12-bit, xvYCC, MHL 3.0), HDMI Audio Only 1.4a

3x USB 2.0, 1x USB 3.0

1x USB Type-C

Gold-plated CVBS video analog output (both analog and digital video outputs are active at the same time)

Gold-plated audio analog RCA (both analog and digital video outputs are active at the same time)

Gold-plated coaxial and S/PDIF optical audio output (Toslink)

Ethernet Gigabit 10/100/1000 Gb/s

Wi-Fi 5 GHz with 2 removable antennas, IR input for IR extender, SD / MMC card reader

AC connector, AC button On/Off (at the back)

LED display on front panel controlled with RC

HDD Rack Option with Hot Swap Function (easily and quickly insert and exchange internal 3.5" SATA HDDs)

Weight 2.20 Lb

Dimensions 281 x 188 x 50 mm (11 x 7.1 x 1.96 In)

Aluminium Finish

# zap!ti One4K HDR

One HDD enclosure

## Specifications:

HDMI 2.0a (HDCP 2.2, TX/RX, CEC, Deep Color, 12 bits, xvYCC, MHL 3.0)

Ethernet Gigabit 10/100/1000 Gb/s

Wi-Fi 5 GHz with 2 gold-plated removable antennas, IR input for IR extender

AC input, AC button On/Off (at the front)

Power LED on front panel controlled with RC

Gold-plated zero signal output, gold-plated headphone output 6.35 mm

Weight 15.4 Lb

High end Power Supply R-Core

Brushed Aluminium finished

*Certified*

The Zappiti Pro 4K HDP  
Has received the ISF  
certification  
(Imaging Science Foundation),  
No compromise for Audio  
and Video.

# **SECRETS** of and **Home Theater High Fidelity®**

Zappiti has included an excellent video processing solution and high-quality audio output. Regardless of your content, or your display's resolution, images will always be sharp and clear with accurate color and maximum contrast

**zappiti** 4K HDR

Supporting almost all audio and video formats, codecs and file containers, including all modern video standards such as HDMI 2.0.

Ultra HD 4K , HDR , 3D subtitles and HEVC video codec with one billion colors (10-Bit color encoding), the Zappiti 4K HDR media player range sets an entirely new standard.

## A universal Media solution !

The Zappiti 4K HDR media players are compatible with most audio and video formats such as UHD ISO, BD ISO, M2TS, MKV4K , MVC 3D with 3D subtitles, BD and UHD menus support.

Home theater audio (including Dolby Atmos and DTS:X) and high-resolution lossless audio files.

The Zappiti Mini 4K HDR is a multimedia player equipped with USB 3.0 and e-SATA connector.

The Zappiti One 4K HDR is equipped with an internal 3.5" SATA HDD bay with hot swap function (up to 16 Tb).

An SE (Special Edition) version offers a dual HDMI output.

The top class Zappiti Duo 4K HDR is equipped with an internal 3.5" SATA HDD bay with hot swap function to maximize total capacity (up to 32 TB) and offers powerful Wi-Fi 5G and Ethernet gigabit network capability.

## Zappiti MagicPixel v2.5

Zappiti MagicPixel v2.5 technology offers an outstanding picture quality, far better than the previous generations.

Improved dynamics, accuracy colorimetry, more contrast, solid deinterlacing and better upscaling (up to 4K resolution).

The HDR range can handle high video bitrates up to 450 Mbps in UHD 4K HDR! all the Zappiti 4K HDR range now features a direct output function.

This powerful feature allows you to display videos in their original resolution and frequency without scaling or processing.

## Ultra HD 4K

Zappiti designs and manufactures only professional grade Video Management Systems; delivering the highest quality, with superior performance for the best possible user experience.

If you don't own an Ultra HD 4K display, No problem! Zappiti Magic Pixel converts Ultra HD video content into extremely highquality 1080p uncompressed 4:4:4 video to enjoy 4K content on Full HD 1080p displays.

This process increases the resolution by about 30% compared with Blu-ray on a 1080p TV. In addition, HDR is perfectly converted into SDR with BT.2020 to BT.709 conversion (3D LUT) for perfect color grading.

With Zappiti MagicPixel v2.5, the benefits of 4K are not restricted to just large screen displays.

Zappiti Video is a free media player software and entertainment hub for Zappiti Media Players and also available on OS X, Windows, featuring an impressive user interface with movie covers.

With Zappiti Video, you can experience your entire movie and TV serie collection, browse and play your titles from local and network storage media, watch cast and various infos, download subtitles, play trailers and much more within your TV through Zappiti player or PC / Mac.

Zappiti has completely upgraded the media center experience with a remarkably simplified and intuitive design.

The new Zappiti Video Graphical User Interface (GUI) is faster. It features beautiful animations and special effects.

Movies and TV shows page features technical infos (aspect ratio, resolution, frequency, audio codec, video codec, ...).

The plot text automatically scrolls after 10 sec.

## Sagas

Sagas films are automatically placed in groups and sorted by release date.

A saga cover dedicated to the collection is associated with the group and movies are displayed in a stunning carousel with great 3D motion effects!

## Parental Control

With the parental control feature, you can designate movies as "children's" and block access to other movies with a PIN code.

Thus, your children can safely access only their movies! In addition, the child mode provides direct access to movies without the synopsis for greater ease of use.

Finally, the parental control feature blocks access to the editing and deleting functions of your Zappiti collection for perfect safety.

## ZSearch

Zappiti Video features a mix of filters and sorting. You can quickly find your favorite TV shows and movies by using both sorting and filters.

For instance, you can browse the category "Action", then filter by "seen" and sort by "most recent".

## ZSoundtrack

With the amazing Zappiti Soundtrack, you can explore your collection, while listening to the soundtrack associated with your movies, TV shows and sagas.

## ZBonus Live

Zappiti Bonus Live gives you access to additional contents of the movies such as: Making Of, Deleted Scenes, Extracts, Reviews, Bloopers Reels or Soundtracks.

## ZSync (tablette, smartphone, PC, Mac)

With Zappiti Video Control, you can manage your movie collection directly from your tablet or smartphone.

For instance, if you change a movie cover art, the image will be instantly be modified on all your Zappiti players in your home.

You can also display a virtual remote to control your Zappiti media players.

Zappiti products have been specially designed to operate in high-end installations and integrations:

Multi-level security locking, IP and IR control codes for Control4, Crestron, ProControl, RTI, Pronto, Logitech Harmony, Middle Atlantic rack panel, discrete codes ON/OFF and even a Zappiti API for high-end custom integrations.

Backlit remote with learning functions for your Home theater receiver.

# zappiti music

## Control your music without turning On your TV

With Zappiti Music, you can control your music playback through your Zappiti media player, from your smartphone or tablet (iOS or Android) without the need of TV.

Select the Zappiti media player you want to control and manage your music collection directly from your tablet or smartphone.

## Key features:

- ★ File management (copy, cut, past, rename...)
- ★ Playlist management
- ★ Favorite management
- ★ Track exclusion
- ★ Compatible with Zappiti Player 4K and 4K HDR
- ★ Compatible with tablets and smartphones Android and iOS
- ★ Media info and tags
- ★ Thumbnails (internal and external in JPG)
- ★ Search engine (filters)
- ★ Folder shortcuts

## Playback Options:

- ★ Timeline direct access
- ★ Loop (Title/Playlist)
- ★ Shuffle
- ★ Chained
- ★ Next/Previous track
- ★ Play/Pause

# zappiti share

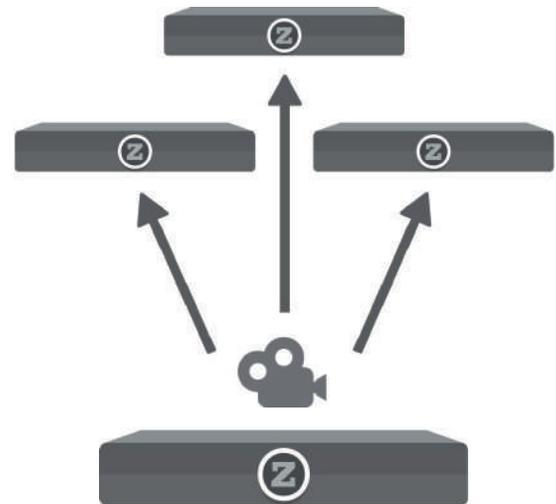

With the new "ZappitiShare" feature, you can share video files stored on the internal (or external) hard drive to other Zappiti media players (including older generations).

So with "Zappiti Share", you can benefit from a true mutiroom video system and play back up to 4 files at the same time in different rooms in Blu-ray quality (2 in UHD quality)!

You can also share other types of media files such as music or photo content.

With Zappiti Sync, your movie collections are automatically synchronized to your other Zappiti players (multiroom) and to all your computers MAC and PC!

This feature is compatible with Zappiti Player 4K and 4K HDR ranges.

# zappiti<sup>TM</sup>NAS Rip 4K HDR

A powerful 8-bay NAS with RIP function to back up your CD , DVD , Blu-ray , Blu-ray 3D and 4K UHD discs.

Perfect to enjoy multi room audio and video (including movies and TV shows) throughout your whole home.

With high performance video processing technology and a rich media center application, the Zappiti NAS RIP 4K HDR delivers an optimal value for Zappiti users to build up an ideal audio/video library storage and feature rich entertainment hub.

## Secured system

The Zappiti NAS RIP 4K HDR was designed (from the ground up remove) to store movies and TV shows reliably on a modern array of hard disk drives without compression or loss of quality.

Designed and assembled in France (Europe), the Zappiti NAS RIP 4K HDR is highly scalable and able to continue operating even after a drive failure, without losing any content.

The Zappiti NAS RIP 4K HDR provides fail-safe storage for your collection using professional disk storage technology called RAID-5.

If a drive fails, data is automatically restored to the hot spare disk, without loss of any content.

The failed drive is replaced without turning off the server or disrupting playbacks in progress.

## Better than streaming!

Max Bitrate.	Streaming 4K	Blu-ray	Blu-ray 4K
Vidéo :	16 Mb/s	60 Mb/s	100 Mb/s
Audio :	512 ko/s	18 Mb/s	24,7 Mb/s

## Easy Back up!

Open the tray of the Blu-ray player.

Insert your disc and close... that's it!

Once your disc is ripped and saved in the internal storage of the Zappiti NAS, it is ejected and you can simply insert another one.

*Easy ripping up to:*

**1 400** 4K UHD

**2 800** Blu-ray

**17 000** DVD

**170 000** CD

**zappiti**
